

IN THE CLAIMS

Please amend the claims as follows:

Claim 1 (Currently Amended): An emulsion composition ~~containing comprising~~:

- (A) a water-based solvent,
- (B) an organic solvent,
- (C) a sulfonic group-containing polymer soluble in the component (A), and
- (D) a polymer soluble in the component (B) but insoluble in water.

Claim 2 (Original): An emulsion composition according to Claim 1, wherein the component (D) is an amino group-containing polymer.

Claim 3 (Currently Amended): An emulsion composition according to Claim 1 [[or 2]], which is a W/O type (water-in-oil type) emulsion and wherein the component (B) has a vapor pressure higher than the vapor pressure of the component (A) at least at a certain temperature T_{d1} .

Claim 4 (Currently Amended): An emulsion composition according to ~~any of Claims 1 to 3~~ Claim 1, which is a W/O type (water-in-oil type) emulsion and wherein a volume of the component (C) is larger than the volume of the component (D).

Claim 5 (Currently Amended): An emulsion composition according to Claim 1 [[or 2]], which is an O/W type (oil-in-water type) emulsion and wherein the component (B) has a vapor pressure lower than the vapor pressure of the component (A) at least at a certain temperature T_{d2} .

Preliminary Amendment

Claim 6 (Currently Amended): An emulsion composition according to Claim 1, [[2 or 5,]] which is an O/W type (oil-in-water type) emulsion and wherein a volume of the component (C) is smaller than the volume of the component (D).

Claim 7 (Currently Amended): An emulsion composition according to ~~any of Claims 1 to 6~~ Claim 1, which has a volume resistance after drying, of 10^{-2} to $19 \Omega \cdot \text{cm}$.

Claim 8 (Currently Amended): A coating material composed of an emulsion composition set forth in ~~any of Claims 1 to 7~~ Claim 1.

Claim 9 (Currently Amended): A film obtained by removing, from an emulsion composition set forth in ~~any of Claims 1 to 7~~ Claim 1, the component (A) and the component (B).

Claim 10 (Currently Amended): A high-molecular solid electrolyte obtained by removing, from an emulsion composition set forth in ~~any of Claims 1 to 7~~ Claim 1, the component (A) and the component (B).

Claim 11 (Currently Amended): A filter obtained by removing, from an emulsion composition set forth in ~~any of Claims 1 to 7~~ Claim 1, the component (A) and the component (B).
